

DAMASKO steel bracelets structure

The buckles of the manufacture steel bracelets are all the same.

It consists of ice-hardened stainless steel. The screws in the buckle are T3 screws, which are glued.

The strap itself has T6 screws. But the diameter of them are different.

Those of the submarine bracelet have a diameter of \varnothing 2,15 mm and that of the the ice-hardened one have a diameter of \varnothing 2,45 mm.

For the watch lines DC7X, DC9X, DK105, DK200/201 and DSubX we do not have a bracelet. Also no BLACK ones are available.

Important:

We have changed the lug width of the case in the past at our chronographs (DC5X and DC6X). If the watch is older than 5 years, please contact us that we can check the serial number and we tell you, if it is necessary to return the watch for finding the best fitting end link.

Always included when buying a bracelet:

DAMASKO Fine-adjustment set: 4 pcs single links, 2 screws
DAMASKO Bracelet tool + instruction

Can be bought extra:

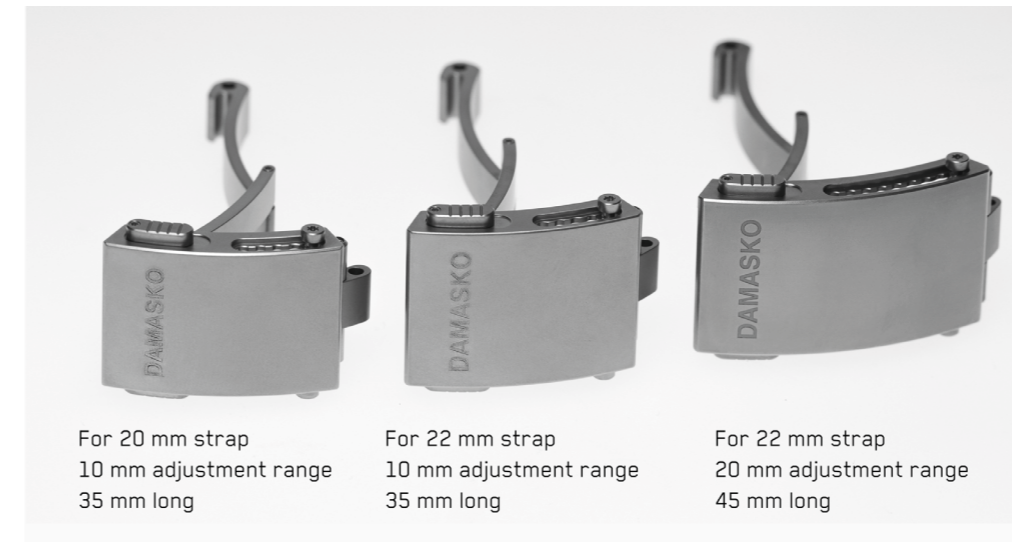

DAMASKO Connecting set: 4 x screws, 2x links, 2x shaft, 1x middle link
DAMASKO Screw set: 6 screws
DAMASKO Buckle
DAMASKO End links

All spare parts can also be bought as a single part.

The DAMASKO bracelet is made with all its components in the watch manufactory - „100 % Made in Germany“ – „100 % Made in House“. Every connecting part is produced one by one and assembled by hand-work. The whole bracelet including the deployment buckle consists of the same ice-hardened stainless steel like the DAMASKO case and is nearly indestructible. The in-house bracelet gleams literally with its precision and robustness.

DAMASKO Manufactory folding clasp with stainless steel bracelet

The DAMASKO manufacture folding clasps can be individually adjusted to fit any wrist for our 20 mm submarine steel bracelet as well as our ice-hardened steel bracelets in 20 mm and 22 mm.

Depending on the version, a fine adjustment range of 10 mm or 20 mm is available. The mechanism of the manufacture folding clasps can be adjusted in 2.5 mm increments by pressing the ergonomically designed push-buttons on both sides.

In addition, the manufactory folding clasps are also available with a 22 mm rubber strap in various lengths.
